Art Unit:

Applicant's arguments with respect to claims have been considered but are moot in view of the new ground(s) of rejection.

***Claim Rejection under 35 U.S.C. 103(a)***

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1,3,4,7,8,10-13,15,18,21,23,25 are rejected under 35 U.S.C. 103(a) as being unpatentable over Voss et al on record. Voss teaches an antimicrobial composition for applying to the outer surface of the human body comprising a carrier and transition metal chelator; wherein, the transition metal chelator comprises a transition chelator anion and an organic cation. See column 1 line 39 and claim 1. Voss does not teach a specific Example wherein an organic solvent is used in his composition. However, Voss does teach that his composition can include additional components including 1-30% amine oxide. See claims. It is well known in the art that amine oxides can function as solvents. See US 4,145,532. It would have been obvious for Voss to include amine oxide in the composition. Voss would have been motivated to do this since Voss makes the suggestion.

Art Unit:

***Claim Objection***

Claims 5,6,9,14,16,17,19,20,22,34,26,27 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. The prior art does not teach or suggest the specific chelators of claim 5.

***Telephonic Inquiry***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alton Pryor whose telephone number is (703) 308-4691. The examiner can normally be reached on Monday through Friday from 8:00 a.m. to 4:30 p.m.
